### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Squallante, Jr. on 9/13/05.

The application has been amended as follows:

In the Title:

Change "Apparatus" to -Method-.

In the Specification:

Page 1, lines 1 and 2, replace "which has now issued" with -now U.S. Patent No. 6786136".

In the Claims:

In claim 18, line 4, delete "a"; line 6, replace "wherein the key means does not pierce or perforate the filter pack" with the following:

--wherein no key means pierces or perforates the filter pack and further wherein said key means is an interlocking or lock and key fitting which enables the brew funnel to accept one brand of a filter pack with said beverage precursor packed therein—

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches the particular method of brewing a beverage as claimed. In particular, Lazaris et al and Fond et al require piercing of the filter pack with key-type means and claim 18 requires that no key means pierce or perforate same. It would have not have been obvious to one having ordinary skill in the art to have modified the brewing process of Lazaris et al and Fond et al to eliminate the piercing aspects of each invention since such action is essential therein. In addition, none of Lazaris et al, Fond et al, or Gidge disclose or teach use of a key means that is either interlocking or acts as a lock and key fitting between the funnel (or filter basket) and the filter pack and in such manner that only one brand of filter pack is able to be used that is key specific to the funnel. It would not have been obvious to one skilled in the art at the time of the invention to have modified any one of the references to include same.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Weier whose telephone number is 571-272-1409. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on 571-272-1398. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
